Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/562,184	Applicant(s) LEE, WAN YOUNG	
	Examiner James Keenan	Art Unit 3652	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3652

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It states that the inventor is a joint inventor, even though only one inventor is listed.

2. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. **The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided.** The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

3. The abstract of the disclosure is objected to because it contains the legal term "means" and in line 1, --of-- should apparently be inserted before "a". Correction is required. See MPEP § 608.01(b).

4. The disclosure is objected to because of the following informalities: page 8, line 29, "safe-ability to the stand" is not understood, and page 13, line 18, --Fig.-- should be inserted before "21".

Appropriate correction is required.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 4, "angel" should be --angle--;

line 7, "plural fork bars" are recited, but later references are made to "the fork bar" in lines 8, 9, and 11-13;

line 10, reference is made to "mounting each fork bar on the rack" (emphasis added); it is believed this should be --beam--;

line 11, the subjective term "proper" is vague;

line 13, it is not clear what is meant by "wheels of the cargo";

line 16, it is not clear what is meant by "providing at a rim";

line 17, "an" should be --a--;

and lines 17-18, "the loading and unloading conveyor" lacks antecedent basis.

Several dependent claims refer to a single "fork bar", which, as noted above, lacks clear antecedent basis.

Claim 4, "the foreign substance" lacks antecedent basis (in claim 2).

Claim 6, "the support plate" lacks antecedent basis.

Claim 13, line 2, the reference to "each ... beam" is not understood, as claim 1 recites only a single beam;

and line 5, "the transfer beam" lacks antecedent basis.

Art Unit: 3652

Claim 15, the recitation "one of any drive pulleys" is not understood.

Claim 16, the term "proper" is vague and subjective.

Claim 18, "the post" and "the motor" lack antecedent basis.

Claim 20, "the overweight cargo" lacks antecedent basis.

7. Claims 1-20, as best understood, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Keenan whose telephone number is 571-272-6925. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Saul Rodriguez can be reached on 571-272-7097. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
